

Update on the City Comprehensive Plan

The Planning Commission has been working hard on a draft of the new Comprehensive Plan. The Commission NEEDS YOUR INPUT. We would like you to schedule a focus group for YOU to find out what your neighbors and co-workers think of the City of Hauser and what the future direction for the City is. Please schedule a Meeting in a Bag! We are hoping for focus groups to provide us the direction and mission for the City by the end of February. You can call the Commission or City Hall to pick up the instructions and the materials for your focus group!

The Comprehensive Plan is a citizen's document. Therefore, it is imperative that we have input from the community. If you do not live within the city limits, but rather the area of city impact, we need to hear from you too!

Also, the Commission has included a calendar of workshops and meetings to complete the draft of the Plan. The public is invited. At Town Hall meetings various subjects will be discussed, questions answered and input welcome.

Please feel free to contact the Commission or the Code Administrator any time with questions about the City of Hauser or the Comprehensive Plan.

It is your right and responsibility to participate in the future planning of your city. It is up to you to guide the Commission as to what your vision is for Hauser in ten years.

Thank you in advance for your participation.

Cris Justus, P&Z Chairman
